Comments / notes on tonight's mission and this interpretation: <p>Taylor: Significant expansion and burnout operations displaying intense heat were visible tonight. The most intense heat was on the northwest and southeast portions of the fire. The interior of the fire is cooling off from previous periods.</p> <p>Grave Creek: No expansion, scattered heat sources throughout the fire perimeter, but mostly in the southern portion of the fire.</p> <p>Pleasant Creek: No expansion, several heat sources throughout the perimeter area</p>
